

VisKon (Roof + Wall + Training) 2 Months only 200,--€

Wood lives, wood builds the future

The natural response to the challenges of our time

No contractual obligations, no cancellation required!

Licence limited until 31 December 2025

VisKon 3D-CAD/CAM
module A for Roofs & Free Structures

VisKon 3D-CAD/CAM
module B for Walls & Ceilings

Every wooden building not only creates a healthy living space, but also sustainability for everyone. The CO₂ is stored very well by trees, and here in Europe they are replaced when cut down, saving energy and preserving precious resources. Modern preconstruction supported by innovative technology allows to create Green & Passive Buildings easily, accurately and quickly.
